Professional Summary

Full Stack Developer with hands-on projects in Laravel, React, and MySQL. Skilled in building responsive applications with modern tools. Currently training in full-stack web development and seeking an entry-level developer role.

Education

The Digital Hub | UNRWA- Beirut, Lebanon

Aug 2025 -

Present

- Built and deployed web applications using full-stack technologies including MERN, Next.js, and Laravel.
- Designed RESTful APIs through Express.js, Next.js, and Laravel to optimize backend efficiency.
- Developed large dashboards and informative web solutions targeting fintech and multi-role setups.
- Operated under Agile SDLC practices utilizing Jira, sprints, and retrospectives.
- Applied design patterns and SOLID guidelines for structured codebases.
- Implemented UI/UX best practices for responsive and intuitive design.

Lebanese International University - Saida, Lebanon

Oct 2022 - June 2024

Bachelor's Degree in Computer Science, covering Mobile Application, Web Development, Data Structure, Information Systems Development.

Sibline Training Center - Saida, Lebanon

Oct 2020 - July 2022

Management Information System, covering ML, DL, Computer Vision, NLP, Agent Systems, and MAS.

Cyber Security – Sibline Training Center(2024) | **Robotics Training** – DOT program(2021)

Professional Experience

Freelance Web Developer – Afkar AI Tatweer, Remote

Dec 2024 – Feb 2025

- Built websites using front-end and back-end languages

IT Support Intern - AI Moasat Association, Onsite, Saida, Lebanon

May 2023 – July 2023

- Assisted in project planning, collaborated with team on design and testing, and resolved technical IT issues.

Project Experience

The Digital Hub – Web Platform & Admin Dashboard

- Built an end-to-end web platform consisting of a responsive public website and a secure admin dashboard, featuring role-based access control (RBAC), protected authentication flows, optional two-factor authentication (2FA), and automated email processes such as password recovery, system notifications, and contact submissions.

- Developed and scaled both backend and frontend architectures using NestJS and Next.js (TypeScript), integrated with Prisma and PostgreSQL, including Docker-based database deployment, and delivered core functionalities like student and user management, programs and events administration, CV upload/download, PDF profile generation, and fully admin-managed dynamic content.

Tech Stack: NestJS, Next.js, TypeScript, Prisma, PostgreSQL, Docker

Vehicles Management System

- Built a complete POS and Accounting System using MERN stack, featuring role-based access with separate dashboards for Admin, Accountant, and Clerk, as well as full inventory, expense tracking and financial management modules.

LAM Online Shopping

- Built an ecommerce website with role-based CMS , allowing users to manage and update content.

[GitHub Repo](#) | **Framework: Laravel**

Medical Center Management System

- Developed appointment booking and pharmacy services. Laravel backend, HTML, CSS, JavaScript, and Bootstrap frontend.

Technical Skills

- **Programming:** JavaScript, PHP
- **Web Technologies:** HTML, CSS
- **Frameworks & Libraries:** React, **Next.js**, Node.js, Express, **NestJS**, Laravel
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Stacks:** MERN (MongoDB, Express, React, Node.js), LAMP
- **DevOps:** Docker, Kubernetes, CI/CD
- **Version Control:** Git, GitHub
- **Tools:** Postman, Swagger, Jira, ClickUp, Figma
- **Soft Skills:** Teamwork, Problem-Solving, Communication
- **Languages:** Arabic (Native), English
